

Dear Neighbour,

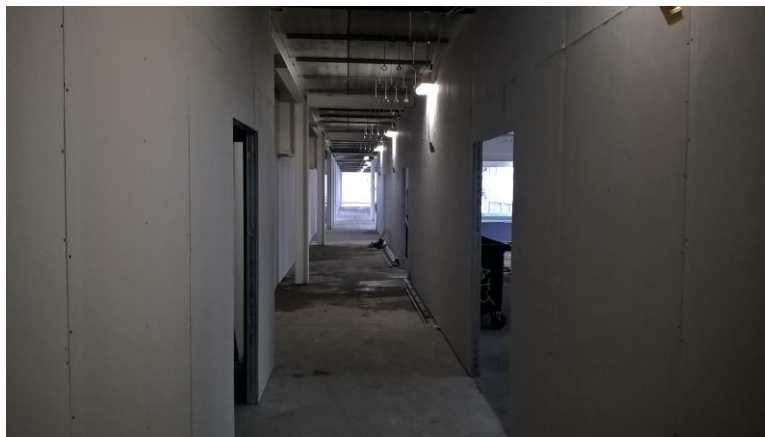

Construction Works at King Richard Secondary School

I am writing to provide a further update on the King Richard School construction project.

During this time we will endeavour to make sure that our activities are carried out as considerately as possible to minimise disruption to our neighbours. Furthermore, we will be distributing regular newsletters to keep you up to date on the project progression.

Progress

Works continue in closing up the façade which has allowed our internal fit out operations to begin. As can be seen from the photograph opposite the internal walls are now being formed (picture from 1st floor corridor) Brickwork to external walls has also started. We have one large concrete pour remaining. This is confirmed for 22nd February.

We continue to re-use excavated material within the scheme to reduce the amount of traffic movements to and from the site

We have a number of local people employed on the project and are keen to encourage this. If you would like any further information on this please contact me on the mobile number below. Alternatively you can contact The Shaw Trust who can assist you with this.

Out of hours security remains in place so that we monitor the site outside of normal working hours.

Our regular meetings with the School continue and our assembly presentations are continuing where we provide information relating to the wider construction industry.

If we can help you with anything please contact me via my mobile phone on 07970 103892. Alternatively if you would like to talk to one of the Construction team directly, please contact our gateman at the main entrance and he will advise accordingly

A comments box is located near the entrance gate on Allaway Avenue for you to use at any time.

Should you need to contact us out of hours please call 0208 308 5051 and quote reference S6774.

Yours faithfully,
For and on behalf of Kier Construction

Andy Wright
Project Manager
